Walt Disney World®

EPCOT CENTER

A Treasure Book of Memories

When you enter EPCOT Center, you step into the world of the possible. Inspired by Walt Disney's dream of an "Experimental Prototype Community of Tomorrow," EPCOT Center is an unprecedented celebration of human ingenuity and achievement.

This 250-acre "entertainment world" has two themed areas: Future World and World Showcase.

Future World examines the challenges and potentials of life in the 21st Century. You'll explore our energy frontiers . . . try out prototype communications systems . . . see plants growing without soil . . . watch scientists at work in an undersea environment . . . and take a bold new look at topics vital to our future.

A steady stream of "FriendShips" traverse the shimmering World Showcase Lagoon, taking guests to the countries of World Showcase, a "Community of Nations." You'll see famous landmarks, sample authentic cuisine, and marvel at the entertainment, arts, and architecture of ten countries from around the world. In a true people-to-people exchange, young adults from World Showcase countries host the pavilions.

And throughout EPCOT Center, you'll find festive live entertainment, including music, parades, outdoor theater shows, mimes, and more!

Since October 1, 1982, millions of people from around the world have experienced the wonders of EPCOT Center — a permanent source of happiness, hope and inspiration.

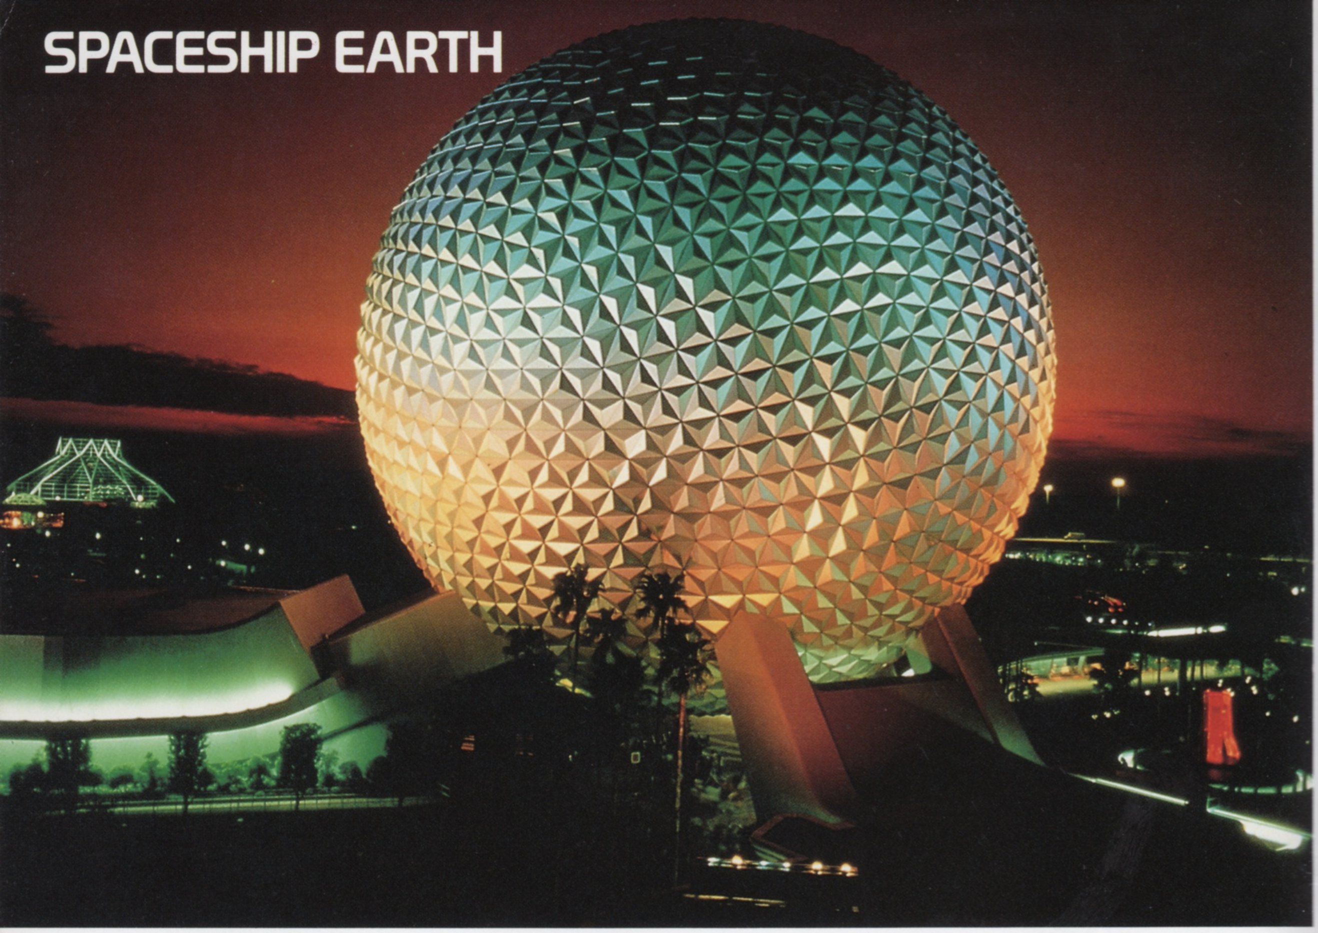
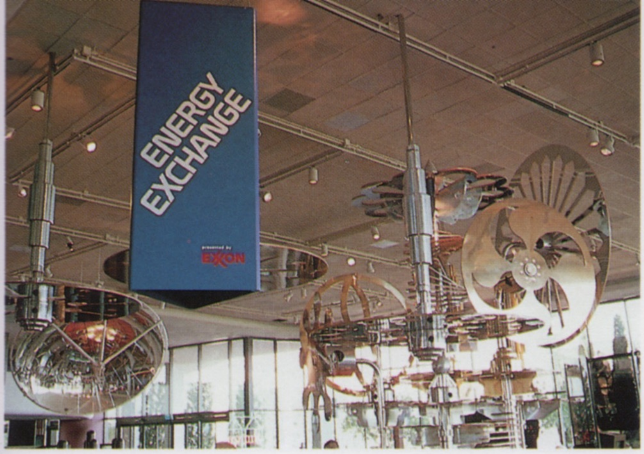
WALT DISNEY WORLD MONORAIL SYSTEM

SPACESHIP EARTH



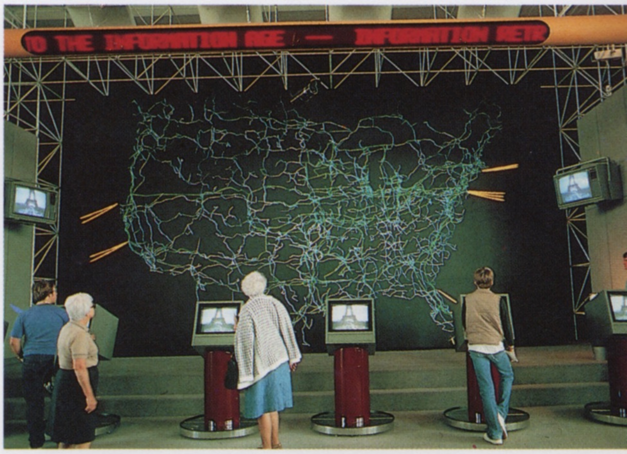
At the entrance to **Future World** you will find an 18-story geosphere called **Spaceship Earth.** It is presented by AT&T and celebrates communication as the key to human progress and survival. Visitors ride "time machine" vehicles back to the dawn of civilization. There they witness the development of hieroglyphics, the Phoenician alphabet, Greek drama and Gutenberg's 15th-century printing press. The picturesque **Spaceship Earth** at night *above and below.* You will relive the painting of the Sistine Chapel *below right* and early Egyptian life *right.*



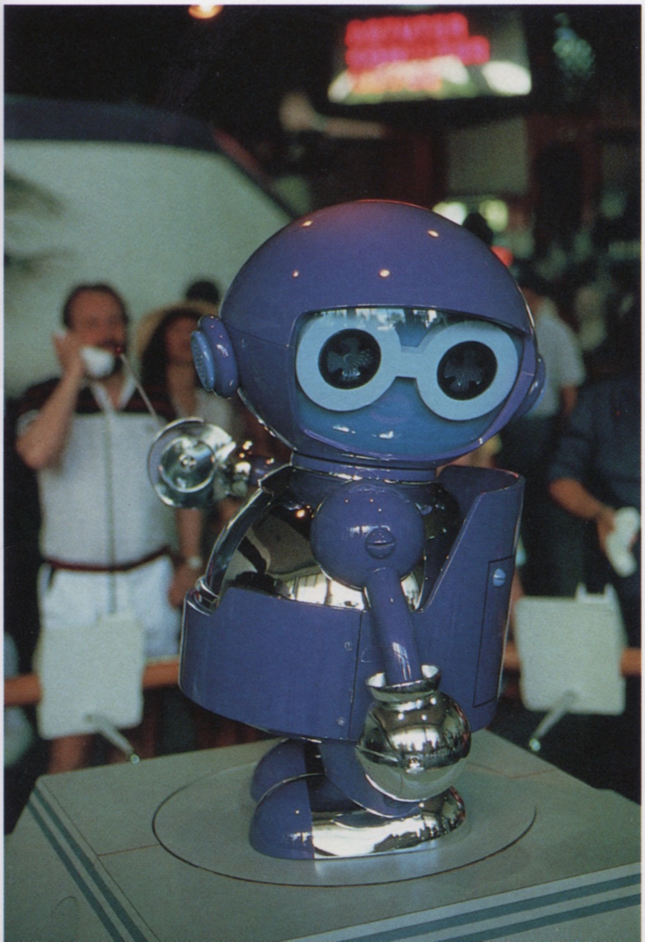
ENERGY EXCHANGE
presented by
EXXON

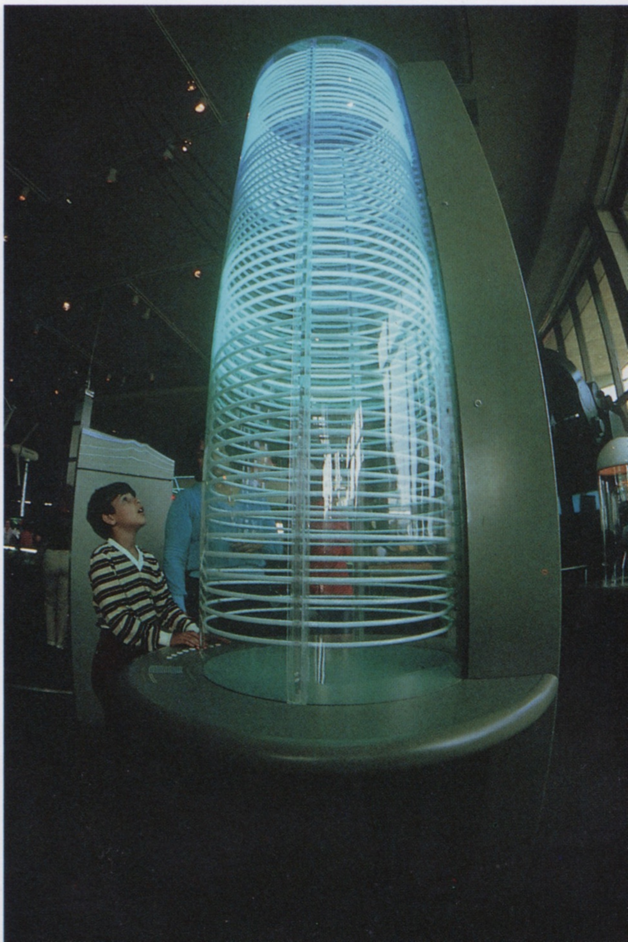
COMMUNICORE

The two crescent structures of **CommuniCore** form the "community core" of **EPCOT Center.** Here visitors try out innovations that may someday become a part of their daily lives. At **Energy Exchange,** presented by Exxon, visitors tap a source of ideas for fueling their futures, and take home hints for conserving energy today *above*. At **FutureCom** "The Intelligent Network" helps explain how your telephone calls are routed *right*. The robot SMRT-1 talks with visitors at **Computer Central** *below*.

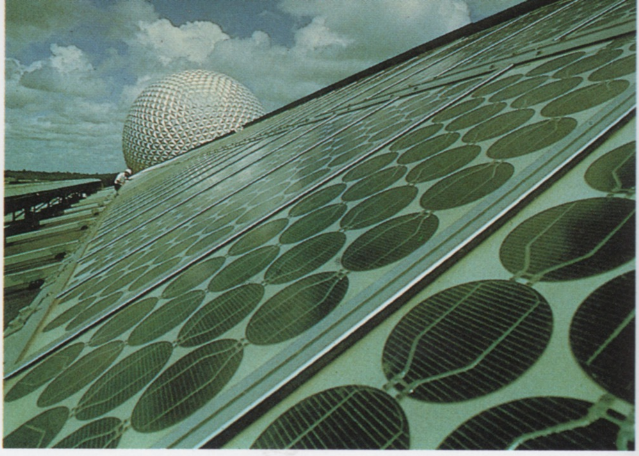


TO THE INFORMATION AGE — INFORMATION RETR



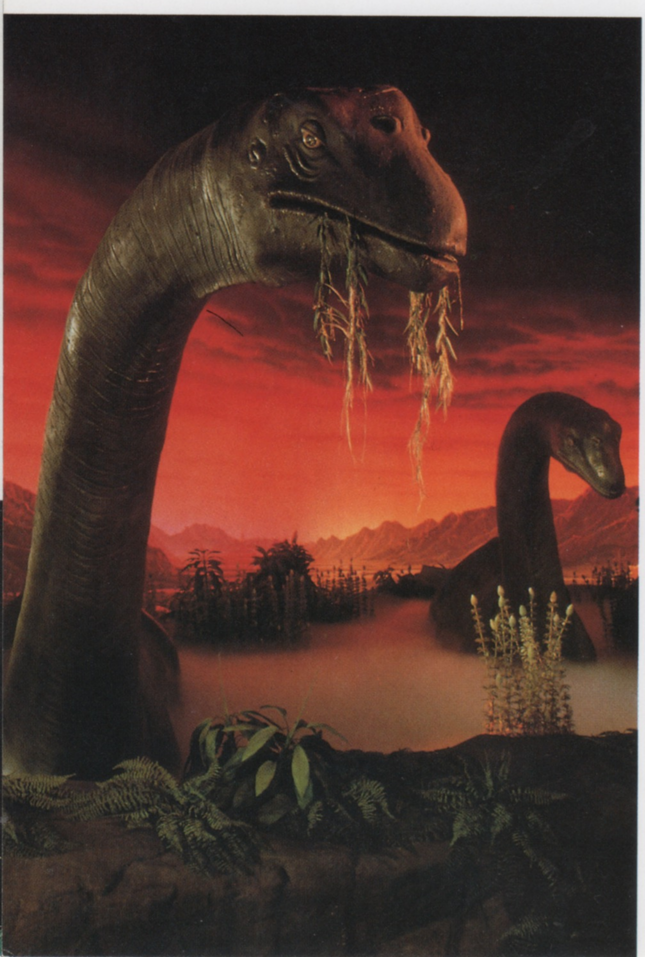


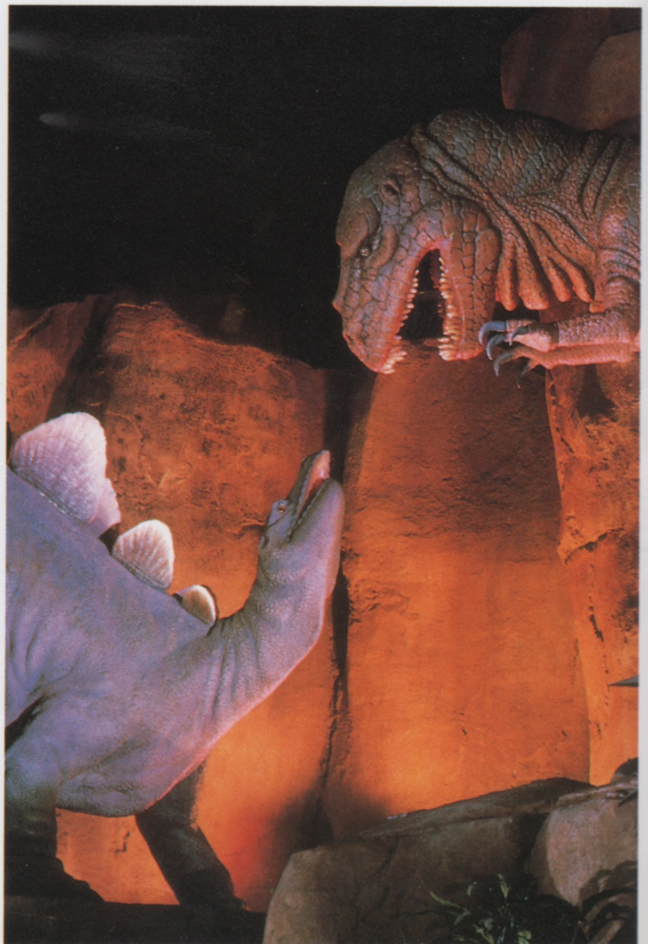
UNIVERSE OF ENERGY
PRESENTED BY
EXXON



UNIVERSE OF ENERGY

Universe of Energy is presented by Exxon *above.* With the help of 80,000 solar cells on its roof *above right* visitors "ride on sunshine" to a primeval forest then through a billion years and explore energy challenges and choices for the future. In the most spectacular show, visitors witness the formation of fossil fuels. Visitors enter a prehistoric forest, where dinosaurs are looming above them *right and below.* Volcanic eruptions rock the ground showing the entrapment of the fossil fuels we use today.



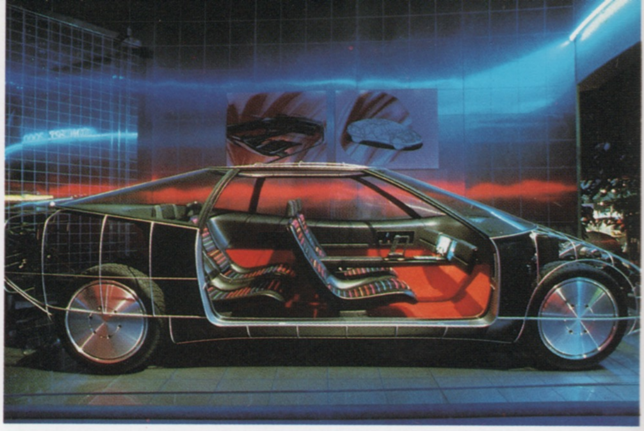


HORIZONS

HORIZONS
PRESENTED BY
GENERAL ELECTRIC

The gem-like structure that houses **Horizons** is presented by General Electric and is dedicated to humanity's future. It is a combination of all the elements found in **Future World** — communication, energy, transportation, creativity and technology as they are applied to families of the future. *(Clockwise from above)* Entrance to **Horizons.** Astronauts learn specialized techniques for outer-space construction in a zero-gravity NASA tank on Earth. A robot runs amok in what is now a whimsical vision from the early 20th century in **Looking Back at Tomorrow.** Visions of family life in the future follow in the next series of pictures.

WORLD OF MOTION
PRESENTED BY
GM General Motors



WORLD OF MOTION

World of Motion is presented by General Motors and shows the evolution of human transportation. Visitors are shown scenes spanning thousands of years. *(Clockwise from above)* Entrance to **World of Motion** — the building is a wheel-shaped structure. Visitors are invited to preview ideas and prototypes for the future in the **Transcenter.** Visitors witness the first big-city traffic jam. Near the end of your travels a futuristic city can be seen along with tomorrow's transportation systems.

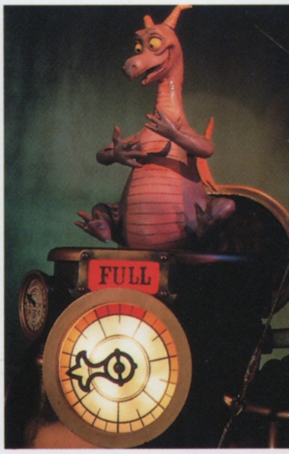
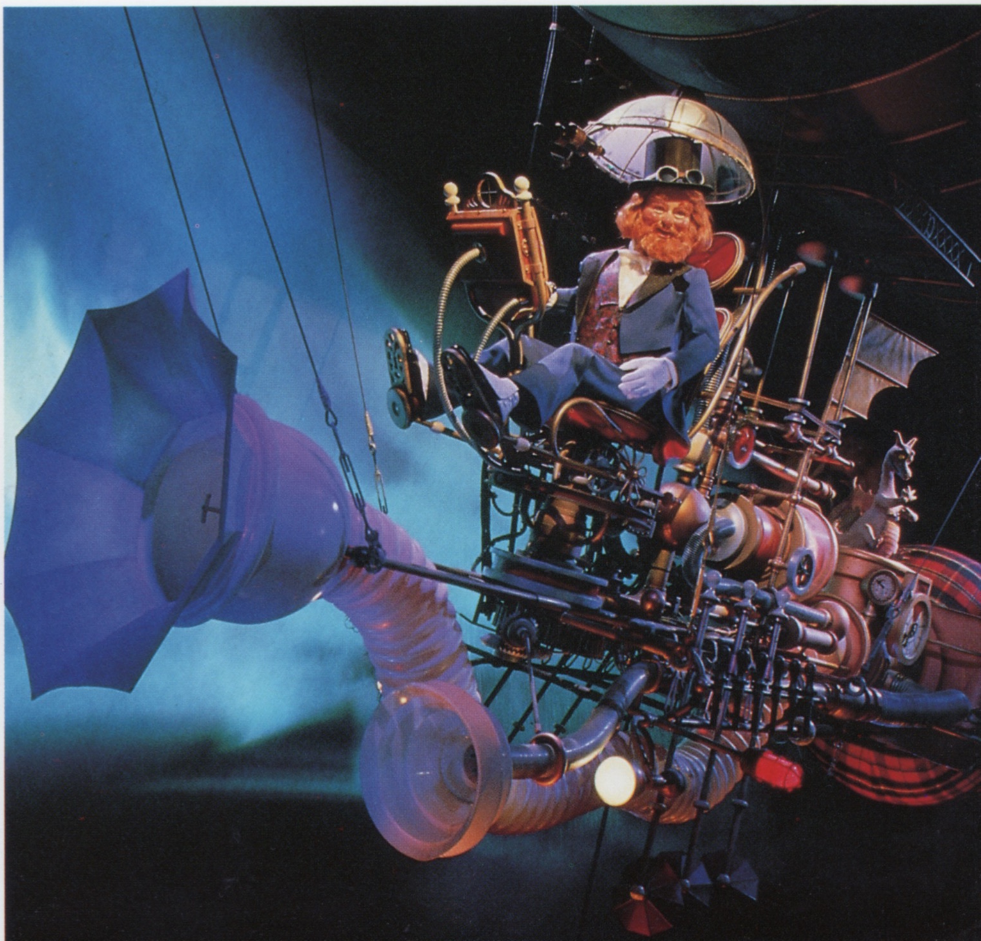
JOURNEY INTO
IMAGINATION



JOURNEY INTO IMAGINATION

Presented by Kodak. *(Clockwise from above)* The crystal-like structure is especially radiant at sunset. Michael Jackson as **Captain EO. Figment** and **Dreamfinder** guide you on your tour aboard their Dream Catching Machine.



THE LAND

THE LAND
Kraft

Cookies
BEETS
Mayonnaise
TUNA

The Land, presented by Kraft, has more than six acres of attractions that show the potential and wonder of the earth. *(Clockwise from above)* **The Land** structure at night. The "Kitchen Kabaret" revue giving musical advice on good nutrition. On the **Tomorrow's Harvest Tour** guests are guided by agricultural specialists on walks through controlled-environment greenhouses and learn about growing techniques that may benefit people in outerspace. Guests sailing thru a greenhouse.

THE LIVING SEAS
PRESENTED BY
UNITED TECHNOLOGIES

THE LIVING SEAS

The Living Seas building is a wavelike structure. This presentation shows man's relation to the undersea world. Visitors explore a Caribbean coral reef that duplicates the chemistry and ecology of a living tropical reef. The tour's next stop is **Seabase Alpha,** where scientists demonstrate new technologies in ocean surveillance. *(Clockwise from above)* In The Living Seas structure, divers feed the many fish. Mickey takes a dive. The beautiful wave-like building at night.
